BUSINESS STATUS

- Small Business

CAGE CODE: 9WWP1

CAPABILITY STATEMENT

THE RIGHT PEOPLE, SOLVING PROBLEMS WITH PURPOSE AND PASSION

MISSION

Help enterprise teams streamline operations by modernizing Microsoft 365 and Power Platform tools—aligning complex business needs with intuitive UX.

CORE COMPETENCIES

Microsoft Power Platform & SharePoint Modernization

End-to-end architecture and development for Canvas/Model-Driven Apps, Power Automate workflows, Dataverse, and enterprise SharePoint Online portals.

UX/UI Design & Prototyping

User-centered design, interactive wireframing (Figma/Adobe XD), graphic design, and custom front-end interfaces focused on rapid adoption.

Business Analysis & Requirements Translation

Bridging program stakeholders and IT using Agile methodologies, user story creation, process optimization, and change management.

AI-Accelerated SDLC & Rapid Delivery

Leveraging enterprise AI frameworks (Claude, ChatGPT, Gemini) for prompt engineering, rapid application prototyping, and accelerated deployment.

DIFFERENTIATORS

- Proven Track Record: 15+ years owner-led experience supporting major federal integrators (e.g., Booz Allen Hamilton).
- User-Centric Technical Execution: UX-first delivery approach specialized in SharePoint & Power Platform modernization.
- Low-Risk Flexibility: Agile, clear-communicating single-partner model that seamlessly bridges program teams and IT.

PAST PERFORMANCE

- Federal Systems & Power Platform Modernization: Led UX design, SharePoint redesigns, and Power Apps workflows across federal engagements, directly boosting user adoption and internal system efficiency.
- Cross-Functional BA & Technical Execution: Facilitated stakeholder collaboration and requirements translation to bridge operational gaps between business leaders and engineering teams.
